### Tips on Using the Illinois Statewide Marriage Index

- To avoid text wrapping to multiple lines, it may be necessary to select a smaller text size in your browser depending on your monitor's screen resolution. In most browsers, text size can be changed under the View menu.
- To print the list of marriages from the results screen, set your printer's page orientation to landscape.
- Illinois marriages were not required to be performed in the county of the bride's or groom's residence. If your search does not find a marriage in the county you expected it to occur, try selecting STATEWIDE in the location option box.
- The *Illinois Statewide Marriage Index* is an on-going project and does not currently include marriage records for all counties in Illinois or complete date spans for some counties.
